

## AC Lake Aerators

## AC1, AC2, & AC3

In the tradition of our durable Solar Direct Aerators, the AC Series borrows many of the same features that have a history of proven performance. The AC Series has been designed to provide reliable, low-cost **24/7 Aeration** using standard grid-power. Like the SD Series, each AC unit is ruggedly constructed using high-quality, **American-Made** components. Features like easy compressor & filter access, quieter enclosures, and engineered air flow highlight the thoughtful system design.
